He has many friends in every camp in Nevada and all over the coast. Mr. War-ner is agent for the house of G. W. WATERING THE STREETS .- W. H. Mc-Killip will to-day have his sprinkler upon the streets for the purpose of laying the dust. This is a good move, for sprinkling the streets will not only "down with the dust," but will go far towards rendering the atmosphere cooler. The latter is the atmosphere cooler. The latter is something quite desirable during these hot days.

DEATH OF A VALUABLE HORSE .- "Cub," a fine gelding belonging to W. S. This animal was a great favorite of Mr. Travis', who feels his loss keenly, not only for his market value, but for the attachment existing between the noble animal and his master.

arrived from Ivanpab, Clark district, we guther the following items in regard to mining matters in that section. In Ivanworking the Bentrice and the Snowstorm

are situated thirty miles north from Ivanpah in Lincoln county, Nevada, These mines were originally located by Mormons in 1850—and again by Capt. Moss and party in 1860. (Our name had the distinguished honor of appearing on the notice of occupancy on the latter occasion. The dividends we have regularly donated to the Young Men's Christian Association.) Quite an effort was then made to work the mines, but from various causes it proved abortive. Since then we believe they have laid idle, though possibly re-located half a dozen times. Now, however, Mr. Hosse informs us, they are about to be worked on forms us, they are about to be worked on a large scale, and smelting works creeted for the reduction of the ores by a San Francisco Company.

AVEWATTS DISTRICT. The country-rock is limestone and quartzite, precisely similar, says our informant, Mr. Hosse, to the formation in this district. The ores are copper-silver-glance, silver-glance and argentiferous galena; but in sinking the galena appears to give out. Chloride ores and horn silver are also found in considerable absolute as a silver are also found in considerarich — assays ranging from \$1,000 to \$10,000 to the ton. These figures sound big, but Mr. Hosse assures us they are strictly correct. But little work has as yet been done, but enough to give assu-rance that labor and capital are all that is needed to make it one of the best bullion-producing districts in the State. JOHN H. LYNCH .- We have no particular change to note in the condition of this unfortunate man, who was so dreadfully wounded by a pistol ball in his head on Sunday morning. That he has survived so long is a matter of surprise. He was still alive at 11:30 last night, but
